

The image shows a screenshot of the Visual Studio Code editor interface. On the left, there is a sidebar with icons for 'Files', 'Libraries', and 'Services'. The 'Files' view is active, showing a file named 'Code.gs'. The main editor area displays the code for 'Code.gs'. The code is written in JavaScript and includes comments in green. The code is as follows:

```

400 body.setMarginBottom(20);
401 body.setMarginLeft(20);
402 body.setMarginRight(20);
403
404 imageUrl.forEach(function (url, index) {
405     try {
406         var imgBlob = UrlFetchApp.fetch(url).getBlob();
407         if (index > 0) body.appendPageBreak();
408         body.appendImage(imgBlob).setWidth(500);
409     } catch (e) {
410         body.appendParagraph("❌ Failed to load image: " + url);
411     }
412 });
413
414 _toggleSave(doc);
415
416 /*****
417  * CONVERT TO PDF
418  *****/
419 var pdfBlob = DriveApp
420     .getFileById(doc.getId())
421     .getAs("application/pdf")
422     .setName("RC_Documents_" + mobile + ".pdf");
423
424 /*****
425  * CLOUDINARY UPLOAD (UNSIGNED)
426  *****/
427 var CLOUD_NAME = "dcaoaiijm";
428 var UPLOAD_PRESET = "whatsapp_unsigned_pdf";
429
430 var uploadUrl =
431     "https://api.cloudinary.com/v1_1/" +

```

The top toolbar contains icons for 'Run' and 'Debug', and a dropdown menu for 'insertImageInNextColumn'. The 'Execution log' is visible on the right side of the top toolbar.
